Who should attend? Dairy producers and managers, veterinarians, allied industry, and extension faculty. Experience with genomics is not required.

Workshop supported by USDA NIFA AFRI grant No. 2013-68004-20365

Dairy Cattle Genomics Workshop Scheduled for August 2017

A research and extension team from University of Idaho, Washington State University, University of Missouri, USDA-ARS, and University of Florida, and hosted by Virginia Cooperative Extension, will be offering a Dairy Cattle Genomics Workshop August 2 in Harrisonburg, VA. The focus of the workshop is to provide dairy producers, veterinarians, and allied industry with the knowledge and tools to make decisions regarding the use of genomic testing. Experience with genomics is not required.

Topics to be discussed: “Genomics and fertility research updates,” “Genomic testing: Where is the greatest economic value?” and “Where do we go from here ---- and when will we get there?”

The workshop will be held Wednesday, August 2 from 6:00 pm — 8:30 pm at Pano’s Restaurant, 3190 South Main Street, Harrisonburg, VA.

This workshop is made possible through USDA-NIFA-AFRI grant 2013-68004-20365, and through collaboration with Virginia Cooperative Extension.

Please reply to Jeremy Daubert to reserve a space: jdaubert@vt.edu or 540.564.3080.
